

Regulatory Information Sheet (RIS)

Linear Low Density Polyethylene

FM31D

CHEMICAL INVENTORIES

All ingredients in this product are in compliance with the following chemical inventories:

- ASIA-PACIFIC
- AUSTRALIA: Australian Inventory of Chemical Substances (AICS)
- JAPAN: Japanese Inventory of Existing and New Chemical Substances (ENCS)
- KOREA: Korean Existing Chemicals List (KECL)
- NEW ZEALAND: New Zealand Inventory of Chemicals (NZIoC)
- THE PHILIPPINES: Philippines Inventory of Chemicals and Chemical Substances (PICCS)
- UNITED STATES: Toxics Substances Control Act Inventory (TSCA)

BRAZIL FOOD CONTACT

The Linear Low Density Polyethylene resin **FM31D**, manufactured by Braskem S.A. Brazil, complies with the requirements defined in Resolution RDC n. 91/2001 of the National Agency of Sanitary Control – ANVISA –, published on May 11, 2001, which “establishes the general criteria and classification of materials for packaging and equipment in contact with food”, as well as their components are comprised in the Positive Lists described in Part I – Positive List of Monomers and other starting substances authorized in the Resolution RDC n. 56/2012 of ANVISA, published on November 16, 2012 and in Resolution RDC n. 17/2008 of ANVISA, published on March 17, 2008 – Positive List of additives for plastic materials for the purpose of packaging and equipment manufacturing for contact with food.

Taking into consideration substances present in the resin composition, there is no restriction regarding the type of food and/or temperature and time of contact during processing and/or storage. The additives and/ or monomers used on the formulation of this product are listed in the positive list of the present Resolution and some present specific migration limit.

In order to guarantee the compliance with the Resolution, the end plastic product must be analyzed by the manufacturer concerning Specific Migration Limit - SML and the total migration limit must be less than 50 mg/kg or 8 mg/dm². For further information on substances containing SML, please contact Braskem S.A.

MERCOSUR FOOD CONTACT

This product complies with the requirements defined in Resolution GMC n. 3/92 of MERCOSUR, published on April 1, 1992, which “establishes the general criteria and classification of materials for packaging and equipment in contact with food”, as well as their components are comprised in the Positive Lists described in Resolution GMC n. 02/2012 - Positive List of Resins and Polymers for plastic packaging and equipment in contact with food, published on April 19, 2012, and in Resolution GMC n. 32/07, Positive List of additives for plastic materials for the purpose of packaging and equipment manufacturing for contact with food published on December 11, 2007.

Taking into consideration substances present in the resin composition, there is no restriction regarding the type of food and/or temperature and time of contact during processing and/or storage. The additives and/ or monomers used on the formulation of this product are listed in the positive list of the present Resolution and some present specific migration limit.

In order to guarantee the compliance with the Resolution, the end plastic product must be analyzed by the manufacturer concerning Specific Migration Limit - SML and the total migration limit must be less than 50 mg/kg or 8 mg/dm². For further information on substances containing SML, please contact Braskem S.A.

UNITED STATES FOOD CONTACT

This product complies with the FDA (Food and Drugs Administration) Regulations, Edition 2015, as defined in 21 CFR, section 177.1520 paragraph (c) 3.1b. The additives are applicable to GRAS or covered in the sections 177.1520, 178.2010, 178.3297, 178.3750, 178.3860, and 184.1191.

This product can also be used in contact with all types of food from “I to IX” as described in Table 1 of Section 176.170(c) of this chapter, and under conditions of use from “D” to “H” described in Table 2 of Section 176.170(c) of this chapter.

EUROPE FOOD CONTACT

This product complies with the requirements defined in Regulation (EC) n° 1935/2004 and Regulation EU 10/2011 and its amendments (includes Regulations (EU) No 321/2011, (EU) No 1282/2011, (EU) No 1183/2012, (EU) No 202/2014 and (EU) 174/2015), regarding plastic materials and products for contact with food.

Taking into consideration substances present in the resin composition, there is no restriction regarding the type of food and/or temperature and time of contact during processing and/or storage. The additives and/ or monomers used on the formulation of this product are listed in the positive list of the present Regulation and some present specific migration limit.

In order to guarantee the compliance with the Regulation, the end plastic product must be analyzed by the manufacturer concerning Specific Migration Limit - SML and the total migration limit must be less than 10 mg/dm². For further information on substances containing SML, please contact Braskem S.A.

This product is produced in accordance with good manufacturing practice (GMP) as outlined in GMP Regulation (EC) No 2023/2006.

DUAL USE ADDITIVE

This product contains Silicon Dioxide, Talc and Calcium Carbonate approved as authorized food additives in the Annex II of Regulation (EC) No 1333/2008, as amended by Commission Regulation (EU) No 1129/2011 (11.11.2011) and Commission Regulation (EU) No 380/2012 (03.05.2012), mentioned as E 551, E 553b and E 170, respectively, and considered as "dual use additives".

CANADA FOOD CONTACT

This product has not been assessed by Health Canada.

ODOR & TASTE

This product complies with the FDA requirements for use in contact with food, as described above. Aspects such as processing, storage period, storage conditions, type of food intended to be in contact with the resin, or other likely conditions may affect the smell or the taste of the food.

ANIMAL ORIGIN

Animal origin additives are not used in the manufacture of this product, therefore it is free from Bovine spongiform encephalopathy (BSE) and Transmissible Spongiform Encephalopathy (TSE).

ALLERGENS

With regards to the manufacture of this resin the following food allergens or products thereof are not intentionally added to the process/ product: cereal containing gluten, crustaceans, eggs, fish, peanuts, soybeans, milk, nuts, celery, mustard, sesame seeds, sulphur dioxide and sulphites.

As these substances are not intentionally added, we inform that they are not tested during our processes.

GENETICALLY MODIFIED ORGANISM (GMO)

With regards to the manufacture of this resin genetically modified organisms (GMOs) are not intentionally added to the process/ product. As these substances are not intentionally added, we inform that they are not tested during our processes.

BRAZILIAN PHARMACOPEIA

This product has not been tested and assessed according to the criteria for approval of the Brazilian Pharmacopeia.

UNITED STATES PHARMACOPEIA (USP)

This product has not been tested and assessed according to the criteria for approval of the US Pharmacopeia (USP).

EUROPEAN PHARMACOPEIA (EP)

This product has not been tested and assessed according to the criteria for approval of the European Pharmacopeia.

TOYS

This product has not been tested and assessed according to the criteria for approval of the NBR NM 300-3: 2011 - Safety of toys - Part 3: Migration of certain elements.

This product has not been tested and assessed according to the criteria for approval of the European Standard EN 71-3:2013 - Safety of toys - Part 3.

BISPHENOL A & BISPHENOL F

This product is not manufactured or formulated with Bisphenol A (BPA, CAS number 80-05-7) and Bisphenol F (BPF, CAS number 620-92-8).

LATEX

With regards to the manufacture of this resin, "natural rubber latex", "dry natural rubber", "synthetic latex or "rubber that contains natural rubber" are not intentionally added to the process/ product.

As these substances are not intentionally added, we inform that they are not tested during our processes.

DYES OR PIGMENTS

This product is not manufactured or formulated with dyes or pigments.

PHthalATES

With regards to the manufacture of this resin the following substances are not intentionally added to the process/product:

- Bis(2-methoxyethyl) phthalate (CAS# 117-82-8)
- Butyl Benzyl Phthalate (BBP, CAS# 85-68-7)
- Dibutyl phthalate (DBP, CAS# 84-74-2)
- Di (2-ethylhexyl)phthalate (DEHP, CAS# 117-81-7)
- Diisobutyl phthalate (DIBP, CAS# 84-69-5)
- Diisodecyl phthalate (DIDP, CAS# 26761-40-0)
- Di-isononyl phthalate (DINP, CAS# 28553-12-0)
- Diisopentylphthalate (DIPP, CAS# 605-50-5)
- Di-n-hexyl phthalate (DnHP, CAS# 84-75-3)
- Di-n-octylphthalate (DnOP, CAS# 117-84-0)
- N-pentyl-isopentylphthalate (CAS# 776297-69-9)

As these substances are not intentionally added, we inform that they are not tested during our processes.

ORGANO-TIN COMPOUNDS

With regards to the manufacture of this resin the following tin compounds are not intentionally added to the process/product: tributyl-tin (TBT, CAS# 688-73-3), dibutyl-tin (DBT, CAS# 1002-53-5) and monobutyl-tin (MBT, CAS# 78763-54-9). As these substances are not intentionally added, we inform that they are not tested during our processes.

CALIFORNIA PROPOSITION 65

This product presents "no significant risk" of cancer for human beings. This product contains no substances known to the State of California (listing according to Proposition 65) to cause reproductive toxicity.

NSF INTERNATIONAL

At this time Braskem holds no NSF certifications for this product.

UL CERTIFICATION

At this time Braskem holds no UL certifications for this product.

DIRECTIVE RoHS (Restriction of Hazardous Substances) (2011/65/EU)

This resin is in compliance with Directive 2011/65/EU (RoHS) as it relates to the restriction of the use of certain hazardous substances (such as lead, mercury, cadmium, hexavalent chromium, polybrominated

biphenyls (PBB), polybrominated diphenyl ethers (PBDE), Butyl Benzyl Phthalate (BBP), Dibutyl phthalate (DBP), Di (2-ethylhexyl) phthalate (DEHP) and Diisobutyl phthalate (DIBP).

COALITION OF NORTHEASTERN GOVERNORS (CONEG) and EUROPEAN DIRECTIVE 94/62/EC

With regards to the manufacture of this resin the following substances are not intentionally added to the process/product: cadmium, chromium (VI), lead and mercury. In addition, this product meets the CONEG requirements and Article 11 of Directive 94/62/EC of less than 100 ppm for aggregate levels of cadmium, chromium, lead and mercury.

Additional information on the health and safety aspects of our product is listed in the MSDS of the product.
